PROFESSIONAL SUMMARY

Full Stack Developer and MCA student with hands-on experience building responsive web applications using HTML, CSS, JavaScript, Tailwind CSS and React.js, and AI-powered full stack features with Python, FastAPI, LangChain and Supabase. Experienced in deploying projects on Vercel and Netlify and in applying data analysis and machine learning. Seeking an opportunity to apply my technical skills, grow as a developer, and gain practical experience in the IT industry.

TECHNICAL SKILLS

- **Programming:** Python, JavaScript, Java, C, C++
- **Frontend:** HTML, CSS, Tailwind CSS, JavaScript, React.js
- **Backend & APIs:** Python, FastAPI, PHP, LangChain, RAG
- **Databases:** MySQL, Supabase
- **Data & ML:** Pandas, NumPy, Matplotlib, Scikit-learn
- **Tools & Deployment:** GitHub, VS Code, Vercel, Netlify, Cloudflare, Jupyter Notebook, Google Colab, Kaggle, Microsoft Word, Excel, PowerPoint

PROJECTS

- **EduMentor AI – Smart Learning & Career Assistant (Team Project, Code Crafters)** – Built a personalized AI-powered learning platform with an AI tutor for instant doubt resolution, an adaptive AI quiz generator with auto-scoring and performance analytics, a PDF Knowledge Vault for document summarization and insight extraction, and a gamified dashboard with XP points, achievements and leaderboards. **Tech:** React.js, Tailwind CSS, JavaScript (frontend); Python, FastAPI, LangChain, RAG (backend); Supabase, OpenAI GPT, Vercel.
- **Blinkit-Style Grocery Delivery Website** – Developed a grocery delivery website frontend inspired by Blinkit using HTML, Tailwind CSS and JavaScript. Worked on responsive UI design, product display, shopping cart functionality and checkout flow.
- **Calculator Web Application** – Developed a calculator using HTML, CSS and JavaScript to perform basic arithmetic operations; deployed successfully on Vercel.
- **Analog Clock Web Application** – Developed a responsive analog clock displaying the current time with hour, minute and second hands, with a clean and user-friendly interface.
- **Credit Card Fraud Detection** – Built a classification model (logistic regression / random forest) to identify fraudulent transactions; handled class imbalance and evaluated performance using precision, recall and F1-score.
- **Titanic Survival Prediction** – Built a classification model to predict passenger survival using age, gender, ticket class and fare; performed data cleaning and exploratory analysis.
- **Movie Rating Prediction** – Developed a regression model to estimate movie ratings from genre, director and cast, applying preprocessing and feature engineering.
- **Sales Prediction** – Built a model to forecast product sales from advertising expenditure and audience targeting data.
- **Iris Flower Classification** – Built a machine learning model to classify Iris flowers into three species from sepal and petal measurements.

INTERNSHIP

Data Science Intern – CodSoft (Virtual Internship) 15 Jun 2026 – 15 Jul 2026

- Performed data preprocessing and exploratory data analysis (EDA) on multiple real-world datasets.
- Built and evaluated machine learning models for predictive analytics tasks.
- Created visualizations to communicate data insights and model performance.

EDUCATION

Master of Computer Application (MCA) – Currently Pursuing 2025 – 2027
Gandhi Institute of Technology and Management (GITAM), BBSR | Biju Patnaik University of Technology, Odisha

Bachelor of Science in Computer Science 2022 – 2025
Gayatri +3 Science College | Affiliated to Utkal University, BBSR, Khordha **76.90%**

Higher Secondary (+2 Science) 2020 – 2022
Gayatri Women's Higher Secondary School, Nuagaon | CHSE Board, Odisha **60%**

Board of Secondary Education (X) 2020
Balunkeswar Vidyapitha, Pampalo | BSE Board **55%**

CERTIFICATIONS & COURSES

C Programming • Networking Fundamentals and Protocols • Introduction to Computing Systems • Data Driven Systems: DBMS, SQL and Data Modeling • AI Fundamentals • AI For Everyone • Data Science Internship • Code Nexus Hackathon

ACHIEVEMENTS & ACTIVITIES

- Participated in hackathons and technical workshops (certificate).
- Successfully completed the Microsoft AI/ML Training Program.
- Completed 5 hands-on projects during the CodSoft Data Science Internship.
- Active participant in college events and team activities.

SOFT SKILLS, LANGUAGES & INTERESTS

Soft Skills: Communication, Teamwork, Problem Solving, Leadership, Adaptability, Time Management, Critical Thinking
Languages: English, Hindi, Odia
Interests: Reading books, playing badminton, drawing, learning new technical skills, traveling

I hereby declare that the information provided above is true to the best of my knowledge.
